Contents of Volume 83 1999

Alefeld GE, Chen X, Potra FA: Numerical validation of solutions of linear complementarity problems 1

Bornemann FA, Schütte C: Adaptive accuracy control for Car-Parrinello simulations 179
Brenner SC: The condition number of the Schur complement in domain decomposition 187
Brenner SC, Sung L: Balancing domain decomposition for nonconforming plate elements 25
Brezinski C, Zaglia MR, Sadok H: New look-ahead Lanczos-type algorithms for linear systems 53

Calvetti D, Reichel L, Zhang Q: Iterative exponential filtering for large discrete ill-posed problems 535
Calvo N, Durany J, Vázquez C: Numerical approach of temperature distribution in a free boundary model for polythermal ice sheets 557
Chen X → Alefeld GE
Chipot M: The appearance of microstructures in problems with incompatible wells and their numerical approach 325

Dai Y, Yuan Y: Global convergence of the method of shortest residuals 581
Damelin SB, Diethelm K: Interpolatory product quadratures for Cauchy principal value integrals with Freud weights 87
DeLillo TK, Horn MA, Pfaltzgraff JA: Numerical conformal mapping of multiply connected regions by Fornberg-like methods 205
Dieci L, Van Vleck ES: Computation of orthonormal factors for fundamental solution matrices 599
Diethelm K → Damelin SB
Douglas Jr. J, Huang C-S, Pereira F: The modified method of characteristics with adjusted advection 353
Durany J → Calvo N

Elman HC, O'Leary DP: Eigenanalysis of some preconditioned Helmholtz problems 231
Evje S, Karlsen KH: Viscous splitting approximation of mixed hyperbolic-parabolic convection-diffusion equations 107

Frommer A, Szyld DB: Weighted max norms, splittings, and overlapping additive Schwarz iterations 259

Griebel M, Oswald P, Schiekofer T: Sparse grids for boundary integral equations 279
Guglielmi N, Hairer E: Order stars and stability for delay differential equations 371
Guo C-H: Incomplete block factorization preconditioning for indefinite elliptic problems 621

Hanke M, Vogel CR: Two-level preconditioners for regularized inverse problems I: Theory 385
Hairer E → Guglielmi N
Heuer N, Maischak M, Stephan EP: Exponential convergence of the hp-version for the boundary element method on open surfaces 641
Hochbruck M, Lubich C: A Gautschi-type method for oscillatory second-order differential equations 403
Hou Z → Jin Q
Horn MA → DeLillo TK
Huang C-S → Douglas Jr. J

Jin Q, Hou Z: On an a posteriori parameter choice strategy for Tikhonov regularization of nonlinear ill-posed problems 139

Karlsen KH → Evje S
Kossioris G, Makridakis Ch, Souganidis PE: Finite volume schemes for Hamilton–Jacobi equations 427

Lubich C → Hochbruck M

Maischak M → Heuer N
Makridakis Ch → Kossioris G
Malyshev AN: A formula for the 2-norm distance from a matrix to the set of matrices with multiple eigenvalues 443
Mishev ID: Finite volume element methods for non-definite problems 161

O'Leary DP → Elman HC
Oswald P → Griebel M

Pereira F → Douglas Jr. J
Pfaltzgraff JA → DeLillo TK
Potra FA → Alefeld GE
Publisher's Note: Publications in the Directory ONLINE First 177

Reichel L → Calvetti D

Sadok H → Brezinski C
Schiekofer T → Griebel M
Schötzau D, Schwab C, Stenberg R: Mixed *hp*-FEM on anisotropic meshes II: Hanging nodes and tensor products of boundary layer meshes 667
Schütte C → Bornemann FA
Schwab C → Schötzau D
Segeth K: A posteriori error estimation with the finite element method of lines for a nonlinear parabolic equation in one space dimension 455

Shang Z-j: KAM theorem of symplectic algorithms for Hamiltonian systems 477
Sloan IH, Wendland WL: Spline qualocation methods for variable-coefficient elliptic equations on curves 497
Souganidis PE → Kossioris G
Stenberg R → Schötzau D
Stephan EP → Heuer N
Stewart GW: Four algorithms for the the efficient computation of truncated pivoted QR approximations to a sparse matrix 313
Sung L → Brenner SC
Szyld DB → Frommer A

Van Vleck ES → Dieci L
Vázquez C → Calvo N
Veselić K: A note on the pivoted symmetric LR iteration 699
Vogel CR → Hanke M

Wendland WL → Sloan IH

Yuan Y → Dai Y

Zaglia MR → Brezinski C
Zhang Q → Calvetti D
